Computer Architecture

总分：2

1. What are the four layers of the computer architecture?

1/1 分

- ☐ Binary, Hardware, Operating System, Software
- ☒ Hardware, Operating System, Software, User
- ☐ Computer, Operating System, Software, User
- ☐ Hardware, Windows, Software, User

正确

Great job! The layers of computer architecture are the hardware, operating system, software, and user layers.

2. Write a paragraph on examples of abstraction that you encounter in your day-to-day life. For example, driving a car is an example of abstraction, you don't need to understand how a car works underneath the hood in order to drive one.

1/1 分

正确

It's amazing how often we use abstraction in our daily lives, without even realizing it. Thank you for submitting your response to this prompt. I encourage you to think of other ways you use abstraction in your daily routine. This habit will help as you prepare to become an IT Support Specialist!
